(No reviews yet) Write an SKU review: WALL_MOUNTED_DOOR_GUIDE Available: Wall-mounted ships 1-2 days our top guide door of the door guide line includes 2 adjustable roller guides to allow for thicker and thinner doors. This guide is on your wall or base board and is suitable for customers who don't want to drill into their floors. This guide measures 5 inches in total length and 2 inches wide. It is suitable for doors up to 2-1/4 inches thick. © 1996-2014, Amazon.com, Inc. or its affiliates your order is processing please do not click the Back button or refresh the page. Thursday March 14, 2019 A barn door guide is the perfect solution for preventing pitching or pitching back and forth. Each of our barn door hardware systems comes standard with a barn door guide. Without a barn door guide installed your door may hit the wall and swing outwards as it rolls along the track. It can damage the wheels of the barn door roller skates as well as the wall it hangs on. Each of the guides of our barn doors is approximately 3 in long. They don't extend the entire width of the door. You don't even see the manual. They are never a stumbling hazard and the barn door guide is always installed outside the wire or beyond and into the plane of the door about half the width of the door. Each guide takes about 5 minutes to install. Which barn door guide is recommended for your project? Let's explore them a little deeper to find out. This is a 3-length long L-shaped metal bracket installed on the floor and from the path, and positioned with adjustable grooves. This comes with the hardware required for installation. This standard guide of the barn door is defined by the edge of its L upright metal that fits in the groove slot at the bottom of your barn door. NOTE: The impact on the floor is very minimal and consists of (2) 1/8-inch holes. If you don't want to knock into your wooden floors, tile, or carpet then go with the guide installed on the wall. This option will require (2) 1/8-inch holes in the wall. This consists of two standard guides (see description above). Also included are optional sticker-backed sensitive straps that can be applied to the face in front of the sides of both guides forming a U-shape which cups the door and allows the door to slide inside the U easily. This barn door guide also connects to the floor with the mounting hardware provided. NOTE: The impact on the floor is very minimal and consists of (2) 1/8-inch holes. If you don't want to knock into your wooden floors, tile, or carpet go with a guide installed on the wall. This option will require (2) 1/8-inch holes in the wall. This guide is characterized by an adjustable slot dish that allows for round trip movement suitable for many door thicknesses. It is also characterized by mounting on the wall rather than the floor. This guide consists of two standard guides (see description above). Also included are an optional sticker from height felt strips that can be The interior faces the sides of the two guides forming a U shape which cups the door and allows the door to slide inside the U easily. The defining feature of the wall installed in the adjustable U-channel door guide is an adjustable slot arm which fits the entire width of the door and installs directly to the wall. This guide consists of a premium rolling theme wheel that allows the barn door to slide effortlessly behind it. If you don't have a groove at the bottom of your barn door or you can't create a groove (perfect for glass doors) a roller guide mounted on the floor it will work beautifully. NOTE: The impact on the floor is very minimal and consists of (2) 1/8-inch holes. If you don't want to knock into your wooden floors, tile, or carpet go with a guide installed on the wall. This option will require (2) 1/8-inch holes in the wall. This guide is mounted on the wall and is characterized by its premium theme rollers which hug the door that sits between rollers and the wall. This option is similar to a floor-mounted roller guide, but is perfect for a situation where installation installed on the wall is required.
